- \*C \*C++ \*Java \*Dart \*Python
- Good at DSA, OOP
- Web Full Stack:
- \* html, css, javascript, reactjs (Front End)
- \* nodejs, express (Back End)

### Certificate

- EF standard English certificate: C2
- IBM Enterprise Design Thinking Co-Creator

## Summary

As a Computer Engineering student, I have a passion for Software Engineering. I hope I will have a lot of opportunities to work and study the above majors to develop myself and contribute my brain to society. My Credly Badges: <https://www.credly.com/users/thanh-nguyen.a58c82bb>

## Education

### VNU University of Engineering and Technology

08/2019-06/2023

Computer Engineering

-GPA: 2.86/4.

## Exxperience

### C++, Android

06/2022-08/2022

Samsung SVMC

Advanced Training on DSA

**Project: Who is a millionaire?**

Overview: Multiple question game app inspired by Who Wants to be a Millionaire

Number of members: 4 people

Role: Front-end: Build interfaces with Android

Demo video: <http://surl.li/csbjn>

### Makit: Flutter To - Do List App

09/2021-01/2022

Samsung SVMC

Advanced Training on DSA

**Project: Who is a millionaire?**

Overview: Multiple question game app inspired by Who Wants to be a Millionaire

Number of members: 4 people

Role: Front-end: Build interfaces with Android

Demo video: <http://surl.li/csbjn>

### Smart Farmer: Social Network

03/2022-04/2022

Team Project - UET Hackathon

Overview: A specialized social network for agriculture, where farmers can connect with businesses

Number of members: 2 people

Role: Front-end: Interface Design Using React Native

Presentation slides: <http://surl.li/csbly>

### Tomorrow World: Social Network

07/2022-08/2022

Team Project - Build On Viet Nam

Overview: A specialized social network for young people who are interested in environmental protection

CS107: C++ Programming  
IBM Full Stack Developer Professional Certificate  
IBM AI Engineering Professional Certificate

Number of members: 3 people  
Role: Team Leader:  
Interface design using ReactJs  
Create API using NodeJs  
Deploy product on AWS  
Create an Agile plan on Jira  
Demo video: <https://youtu.be/Wg1np07JbXU>

---

Activities
